Full Stack Web Developer (MERN)

Summary

Aspiring Full Stack Web Developer with hands-on experience in building responsive web applications using React.js and JavaScript (ES6). Expanding backend skills with Node.js, Express.js, and MongoDB. Strong problem-solving, client-handling experience from hospitality industry. Seeking an entry-level developer role to apply technical skills and contribute to real-world projects.

Projects

Quiz App - GitHub Repository

- Built a responsive quiz app using React.js with ES6 logic for dynamic questions and score tracking.
- Implemented fully responsive UI and user-friendly navigation.

Weather App - GitHub Repository

- Developed a weather app using React.js, fetching real-time data from a public API.
- Displayed current conditions in a clean, responsive interface; demonstrated API integration and state management.
